

The Better Back™ Neck Restore provides support of the upper neck/cervical spine for gentle traction or decompression of the neck and self-administered suboccipital release, a technique to reduce tension in the supporting muscles of the neck. Apply firm, yet comfortable pressure to naturally and gently loosen tight, sore muscles while lying on a flat surface OR while inverted on a Teeter Inversion Table for added neck support and tension relief at virtually any angle.

## Reduce Neck Tension, Soreness, & Pain

### Ergonomic Support

The curved base with non-slip grips and foam insert seat comfortably at the base of the head for perfectly-targeted release of the soft supporting tissues of the neck.

### Rotates for Variable Pressure

The base freely rotates on its axel to allow better positioning and side-to-side pressure for targeting trouble areas. A steel roller bearing system in its base ensures smooth operation.

### Comfortable, Steady Pressure

Durable, textured rubber insert is soft enough to be comfortable, yet firm enough to apply adequate pressure and support. Can be removed for easy cleaning or chilled in the freezer for a therapeutic cooling sensation.

### Teeter Inversion Accessory

Hook & Loop straps on the base attach to most Teeter Inversion Tables for added neck support and tension relief at virtually any angle.

Packaged Dims	7.5 x 7.5 x 4.5 in (19.1 x 19.1 x 11.4 cm)	15.6 x 23.2 x 10.2 (39.5 x 59 x 26 cm)
Packaged Weight	1.3 lb (.6 kg)	15lb (6.8 kg)
Master Pack Qty	12
